

## CLEANER UV-C

Provide a safe and hygienic workplace

# WHY? BEING A GOOD EMPLOYER IS TAKING CARE OF YOUR EMPLOYEES

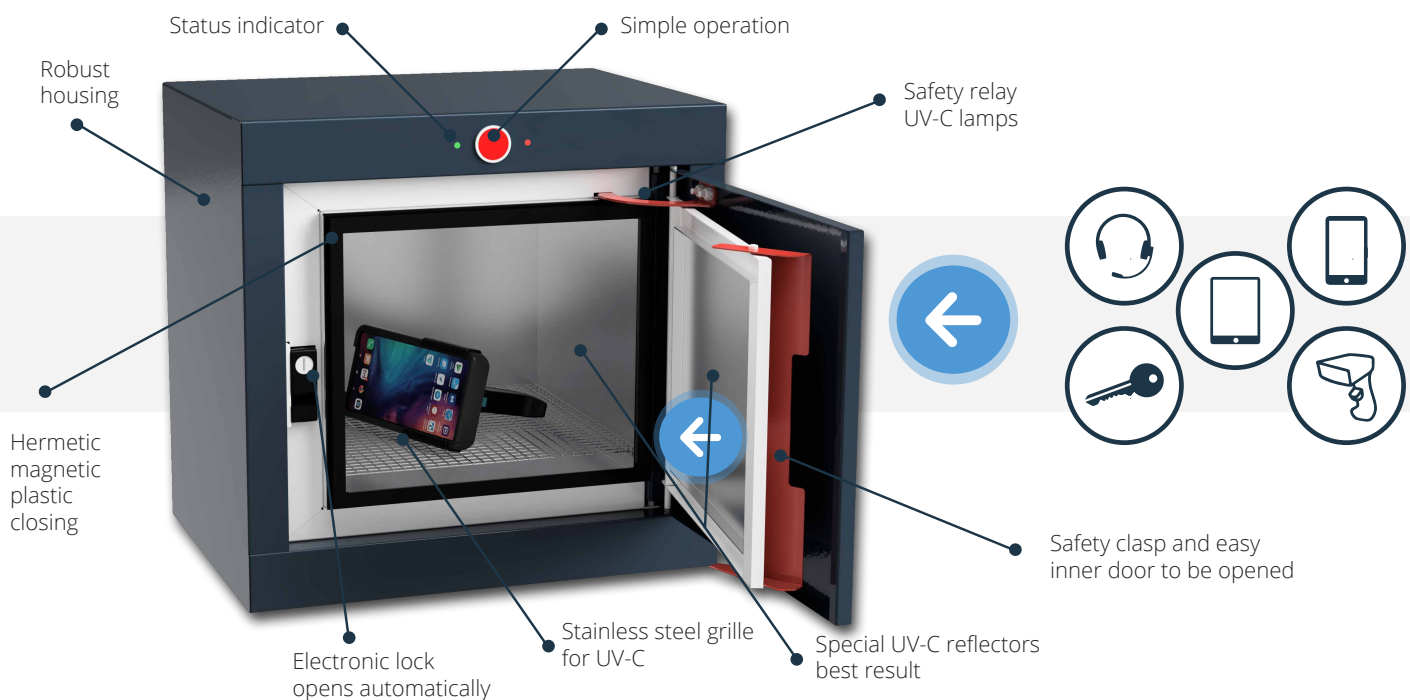

UV-C

**Equipment and products that are often exchanged between employees or used in different shifts within an organization are often difficult or impossible to disinfect with cleaning alcohol.**

With the Cleaner UV-C you can disinfect mobile equipment and other assets efficiently and easily. Using the same method used in hospitals. UV-C light kills viruses and bacteria very quickly and effectively. The special reflection in the Cleaner UV-C disinfects all sides (360 °).

## Advantages:

- ✓ Can be used for keys, telephones, handheld terminals, headsets, tablets, etc.
- ✓ Disinfected in 30 seconds
- ✓ Simple, safe and fast
- ✓ Proven UV-C method as also used in hospitals and food industry

## Specifications:

Dimensions in mm:

Locker outside (wxhxd):	415x400x310
Locker inside (wxhxd):	280x240x275
Volume compartment (liter):	18,5
Weight (kg):	20

## How it works:

No liquid is used for disinfection. This does not result in damage to your electronic equipment. The Cleaner UV-C can be used for e.g. keys, handheld terminals, mobile phones, headsets, tablets etc.

It's very simple and intuitive for the user: The Cleaner UV-C can be operated in one way and will not open again until the 30 second cycle has been completed. One push button for operation, it couldn't be simpler.
